DETAILED ACTION***Election/Restrictions***

Applicant's election with traverse of Group I, Claims 1-17 in Paper No. 5 is acknowledged. The traversal is on the ground(s) that newly submitted Claim 22 is not distinct from Group I. This is not found persuasive because newly submitted Claim 22 was not subject to the restriction requirement. Applicant's non-election of a species in Paper No. 5 is acknowledged, applicant is required to elect a species out of Group I, the election of Figure 1 is not proper since Figure 1 shows none of the method steps of any claim in Group I, Figure 1 only shows an apparatus. Also applicant's claim that all claims are generic is non-responsive as per the previous office action. Applicant is requested to elect a species from Group I, with a continuously moving gantry with detector heads or where projection images are collected without a gantry in increments less than 360 degrees. No matter which species is elected a figure showing all the features of the claimed invention must be provided before allowance.

Applicant's election of Group I in Paper No. 5 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 18-22 are withdrawn as drawn to a non-elected invention.
